Location: Ahmedabad, Rajasthan

OBJECTIVE

Passionate computer engineering professional with strong programming skills, seeking a **Frontend Developer** role to build modern, user-centric web applications that simplify complex real-world problems.

SKILLS

Frontend Technologies: React.js, HTML, CSS, TailwindCSS, Javascript, Responsive Design, FlutterFlow

Other Technical Skills:- DSA, C++, OOPs, SQL, DBMS, MongoDB

EDUCATION

Bachelor of Technology in Computer Science

July 2021 - May 2025

Parul Institute of Engineering And Technology

CGPA: 7.64/10

Higher Secondary Education (Class XII)

May 2019 - March 2020

Government Senior Secondary School Kalinjara, Banswara

Percentage: 70%

Secondary Education (Class X)

June 2017 - March 2018

Government Senior Secondary School Kalinjara, Banswara

Percentage: 66.83%

WORK EXPERIENCE

❖ Internship: AiMI CAMPUS (TheSSML)

Mumbai, Maharashtra | November 2024 - March 2025

- Worked as a **MERN Stack Developer** with a focus on frontend development using **React.js** and **Tailwind CSS**.
- Developed frontend features using React.js, focusing on component-based architecture and seamless user interaction.

❖ Frontend Developer : ShivAurica

Ahmedabad, Gujarat | On-site | May 2025 – Present

PROJECTS

- **Travels – Tour & Travel Website:** (<https://github.com/Nehal203/travelsNew>) Developed the frontend of a responsive tour and travel website named "Travels" using ReactJS and Tailwind CSS, inspired by the Vromon template. Designed and implemented interactive UI components for key sections like Home, Services, Packages, Gallery, and Contact, ensuring smooth navigation, visual appeal, and full mobile responsiveness.
- **Shopify:** (<https://github.com/Nehal203/Shopify>) Built the frontend of a modern e-commerce website similar to Shopify using ReactJS and Tailwind CSS. Designed dynamic and responsive UI components for product listings, shopping cart, navigation bar, and user interface, ensuring a seamless shopping experience and optimized layout across devices.
- **Weather Application:** (<https://weather-app-nehal-jains-projects.vercel.app/>) Built a weather app using **React.js** with real-time weather data from OpenWeather API. Features include search functionality, temperature unit toggle, auto-update, and custom UI components styled with **Tailwind CSS**.
- **Online Car Parking:** Led frontend development in a 4-member team using **React.js**. Designed an intuitive interface for real-time slot booking, dynamic pricing, and reservation options. This project aims to ease urban traffic and parking issues.
- **CAPTCHA CRAFTERS :** (<https://captcha-crafters.vercel.app/>) Built the Captcha Crafters website to facilitate developer access to CAPTCHA services. Developed frontend with **React.js** and utilized Flask for CAPTCHA generation. Employed MongoDB for CAPTCHA data storage and implemented a login system for API keys. Provided textual and image-based CAPTCHAs and integrated Flask API with user SDK.

CERTIFICATIONS

- **Data Analytics with Python – NPTEL**
- **C++ - Simplilearn SkillUP**
